Hello!

I'm **Ratih**, an enthusiast in creative design, **strategic thinking**, and campaign development with a strong interest in the creative, tech, and FMCG industry.

I've been learning how to solve business problem through my education in **Advertising** DKV at ITB and my working experience. It's been quite a journey to reach where I am today. I started my journey as a **creative** by consistently taking on roles as a visual designer in various projects and as an art director intern. On the other hand, my last experience as a **strategic researcher** and **strategic planner** have taught me to develop **data-driven strategic** directions based on consumer behavior and market insight.

With proven experience in managing **marketing campaigns, developing strategic insights, and producing creative content** in fast-paced environments, I have learned to craft clear communication strategies that drive business growth and increase market share.

I'm adept at working both independently and collaboratively. I'm highly motivated to contribute to innovative projects and eager to expand my knowledge and grow as a person in various fields.

Sambal Pertama

Gold Medal BG Award - Issued By Citra Pariwara 2023

The brief is to revitalize and rebrand a brand called “Sambal Super” that are perceived as outdated and uncool by launching a plan to boost awareness and sales using Spotify Advertising as the whole campaign platform.

Thought Process

- **highlight** brief’s keyword
- clear **objective**
- background **research**

from this process we get a clear objective to the **insight formulation and proposition.**

Human Insight
Indonesian habit on consuming chili sauce

Brand Insight
Tools: competitor analysis from similar brand

Big Idea
Sambal Pertama with HOTstalgia as the communication line

Action Plan

Tease
1. Soft Launch - Pop up & Audio script

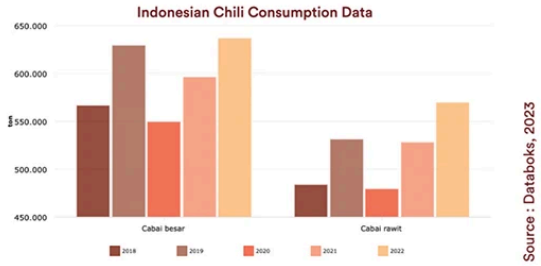
Launch
2. Hard Launch - Homepage banner & product
3. Hotstalgia Playlist - Playlist

Sustain
4. Hotcast teman makan - Podcast

B

of them is always having to add spices to their food, **for them the food doesn't feel complete without the spices**. The rich chili flavor, as the main ingredient, is so well-liked that it has **led to an increased the production of packaged chili sauce**.

The problem is how can Sambal Super survive among the many producers who create chili sauce production with autenticity while maintaining on-trend and make **Sambal Super to be audience's top of mind**.



INSIGHT

THE AVERAGE INDONESIAN HAVE EXPERIENCE THE SPICINESS OF CHILI SAUCE FROM AN EARLY AGE.

COMMUNITY STIGMA: AUTHENTIC CHILI SAUCE PRODUCTS COME FROM FAMILY RECIPES

	Super	Sambel	Bu Rudy	ABC
Target Audience	Young Adult (Young Milenial, Gen Z)	Spicy lovers (Milenial, Gen Z)	Families (Gen X, Millenial)	Industry and families
Digital Platform	Spotify	Instagram, YouTube ads, Tiktok	Instagram, YouTube ads, Tiktok	Instagram, YouTube ads, Tiktok
Audience's insight on Spotify	84% use spotify as their main music streaming platform	84% use spotify as their main music streaming platform	only 16% use Spotify	only 16% use Spotify
Variation	single type product (jar and travel sized sachet)	6 flavor variations (jar)	4 flavor variations (jar)	5 flavor variations (jar and travel sized sachet)

Competitor insights show that among all other brands, **Sambal Super is the only single-type product**, even though it comes with two packaging choices, Sambal Super consists of just one authentic flavor. The challenge is to **transform this problem** into a unique selling point instead.

So, Why Spotify Ads?

In the last three years, the number of Spotify users in Indonesia **has grown threefold**. According to Spotify Customer Insight 2017, **84%** of their users in Indonesia are **Generation Z and young Millennials**.

Currently, our **competitors** are focused on promoting their products through **visually-based digital** platforms. However, the reality is that **not everyone is always in front of a screen** as they have their own activities.

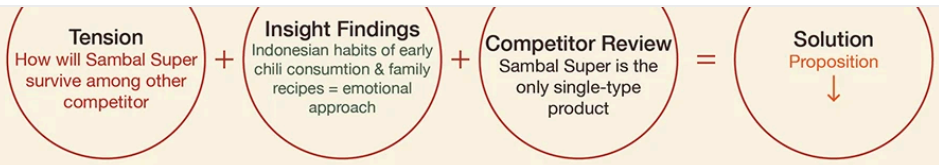
Target Audience

Spotify user **age 18-28**

B

bring is nostalgia from the first insight and an **emotional approach** through family especially mother from the second insight.

This will be the base for **communicating and executing** the campaign.



PROPOSITION

When the situation is

- Sambal Super have a **strong decline in their loyal costumer base**
- **Single-type product** with passed down family recipe

Because they think

Old fashioned chili sauce that is **out of date**

Then what if...

This ancient recipe handed down from generation to generation actually has an authentic taste, a real home taste, making you **remember your first spicy food** that are made by your mother.

Solution

A SAMBAL THAT REMINDS YOU OF THE FIRST TIME YOU TASTED IT

By bringing back their **first time** eating chili sauce, young Indonesians not only dive into **the beauty of nostalgia**, they also go back in time to feel the chili sauce made by their mother with her warmth and love. This presents us with a distinctive avenue for marketing our product, one that **embraces an emotional approach that strengthens family bonds and personal ties**.

THE BIG IDEA

Sambal Pertama

Revisiting the first moments of encountering chili sauce, it reminds us of the beautiful childhood memories with our family.

We use
#HOTstalgia
as a main communication

CTA: Pop up banner that shows silhouette of the sambal jar.

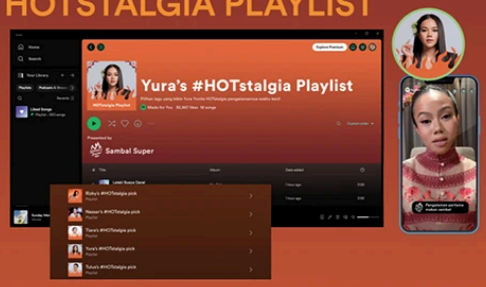
By using a **reverse storytelling technique**, we guide our audience on a journey that takes them from the activities they just did yesterday back to their cherished childhood memories to **trigger a sense of nostalgia**.

We maintain an air of mystery, creating curiosity using a pop up homepage. After a while, we transition from **just the silhouette of the product to revealing** Sambal Super as the bridge to our next campaign step.

HARD LAUNCH
5-9 PM EVERYDAY

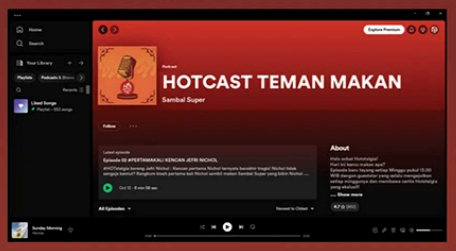
After capturing the audience's attention and introducing them to our brand, we extend an **invitation to purchase** our product through an innovative and interactive packaging. This packaging features a **Spotify code that can be easily scanned**. This launch strategy is **designed to evoke curiosity and the fear of missing out (FOMO)**

HOTSTALGIA PLAYLIST



Consumers who successfully scan the barcode on the purchased Sambal Super product will be **directed to a Sponsored Playlist** page created by Sambal Super in collaboration with top Indonesian singers. We selected **five singers based on the highest total listeners on Spotify**. These five artists will collaborate to create the **Personal Playlist**, which will undoubtedly offer differences in recommended music taste, communication style, also in highly personal and **exclusive "Sambal Pertama" experience stories**.

HOTCAST TEMAN MAKAN
1 PM EVERY SUNDAY



To **maintain the hype** after consumers search for and collect playlists, we use a **Video Podcast titled 'HOTCAST Teman Makan' to softly sell** the product over an extended period. The podcast is updated every Sunday during lunchtime.

The primary goal of the Hotcast is to be consumers' companion during their meals. Short videos (approximately 20 minutes) will accompany meals with **nostalgic stories from local influencers** and prominent figures. To add storytelling variety, **the main theme is #PERTAMAKALI**. The figures will share their 'first time' experiences when they did anything.

Additionally, the **Q&A feature is utilized** to interact with the audience. Questions are related to the video content and presented in a friendly language. This is where the audience can share their memories of their 'Sambal Pertama' experiences.

B

Nyala Bersuara

Finalist of 5 Sadewa, Campaign Brand Asset - Issued By Festival Ajisaka 2023, Departemen Ilmu Komunikasi UGM

The brief is to create the assets for social campaign created to **increase awareness** and encourage the audience to **fight and voice the issue** against cyber harassment.

Thought Process

After doing a research by asking 15 people about cyber harassment, we found that all of them knew someone who had been a victim, and 5 of them were victims themselves. Therefore, we decided to narrow the target audience **to those who could create a larger impact.**

Given Target Audience
Age 18-25
Man and Woman
Live in Urban Rural Areas
Collage Student

→

Segmented Target Audience
Someone who care about this issue and the people closest to the them, not the victim themselves (with the same demography)

With this target audience, the **tone and manner** of the visual assets are soft and friendly so that this campaign can be a forum for the target to work with them as a friend to support victims and spread awareness.

Ide Besar Kampanye

Kampanye Nyala Bersuara : Meraki Asa

Kasus KBGO tidak pernah dapat terprediksi terjadi kapan maupun di mana, untuk mencegah hal tersebut memiliki kemungkinan yang kecil. Alur kampanye sosial Meraki Asa dibangun untuk membentuk kesadaran kolektif dan kepercayaan bahwa korban tidak sendiri, pelaku adalah lawan utama yang perlu dihadapi secara bersama. Dengan demikian, keinginan pelaku untuk melakukan pelecehan seksual akan mengecil karena pengaruh besarnya lawan dan dampak yang akan ia hadapi. Dengan banyaknya masyarakat yang aware dan stand behind the victim, diharapkan dapat mengurangi pelaku kejahatan.

Berkonsep metamorfosis kupu-kupu dan pemangsa sebagai acuan untuk bentuk visual, strategi, dan alur kampanye, dengan perwakilan setiap karakter yang berkaitan.

Panasonic - Awet Mudah

Role: Strategist (insight and direction)

Jacqueline Sumarta - Brand Strategist Intern

Creative Finch Agency

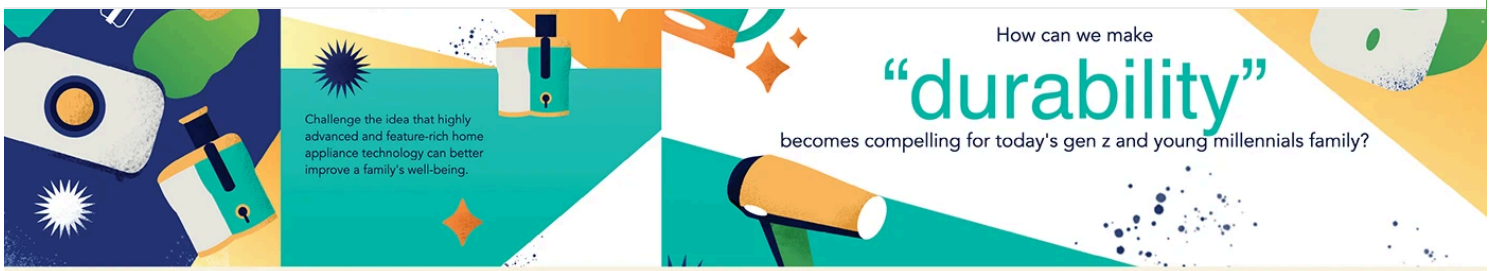
Based on Indonesian's brand survey, **they believe that Japanese electronic brands are of higher quality**. With over a hundred years of history, Panasonic carries a reputation for **"trusted quality"** from its Japanese roots.

Based on Panasonic's internal study, Indonesians often associate Panasonic with **"durability" and "resilience."**

- Yet, in a fast-paced innovation-driven market, Panasonic is also **seen as not offering enough value** for its features. Panasonic's competitors, are striving to introduce cutting-edge designs and smart features that align with current trends.
- Whereas, Panasonic has been a reliable electronic brand that focuses on enhancing family well-being with durable features, **without unnecessary gimmicks**.

When competitors prioritize gimmicky features, they often neglect the **quality that ensures products' durability**. Which, eventually harms the family's well-being.

B



Sustainable lifestyle is currently trending. The principles involve reducing waste and creating a high-quality living environment. It is increasingly becoming more appealing to our target audience.

The pandemic plus economic challenges have made Indonesians become more financially conscious. Hence, they now prefer to invest in items for **long-term use** for lasting joy and benefits.

How does this rising trend relate to home appliances?

Insight

Home has now become the center of family's **well-being**. The role of home has evolved beyond basic function.

Therefore, **people find the need to optimize their home for maximum comfort** to create healthier, safer, happier, more satisfying life.

While fancy tech might offer quick comfort and convenience, it's **short-lived rather than sustainable**. Once their appliances are broken, their life gets disrupted, affecting their peace of mind.

Brand Role

Panasonic has an opportunity to position its brand as sustainable home electronic appliances.

Product Competitive Edge:

- Japan quality
- Reliable and durable for more than 100 years
- Wide range of products
- Eco/Energy efficient

Consumer Tension

Sustainable lifestyle is trending, and the journey to adopt it begins at home. It starts from using appliances that enhance their living space for a healthier, more comfortable, and satisfying life. Fancy tech might offer quick comfort and convenience, but it's **short-lived rather than sustainable**.

Brand Truth

Sustainable home electronic appliances.

Panasonic has been a reliable electronic brand that focuses on **enhancing family well-being** with **durable features**, without unnecessary gimmicks.

Proposition

Panasonic is your lifelong partner for creating **renewable peace of mind** from home.

We need to shift the portrayal of **smart consumers** from choosing smart/ high-tech home appliances to selecting **durable, long-lasting home appliances** so they can live a healthy, comfortable, and satisfying life without any disturbances.

The brief is to win over **YPIF** (Young Progressive Indonesian Family), XL wants to focus its **brand communications** towards Progressive Moms. The tasks are:

- Propose the next XL Brand campaign towards Progressive Moms segment as the current focus #WeAreMoms #WeAreMore.
- Propose XL Poin campaign to improve brand consideration through a key message: “Banyak Keuntungan dengan XL Poin”.

Business Problem
Each competitor has a single-minded advantage that attracts users: Telkomsel’s wide coverage and Indosat’s affordable packages.

XL needs to communicate how it’s single minded benefit is relevant with progressive mom’s life.

→

So our way forward is
To find **the hidden and unspoken tension** in progressive moms life
&
find out **how XL** could have a **meaningful brand role** and adressing it.

Young progressive Indonesian families (YPIF)
Urban white collar
25-35 y.o.
Married w/ kids aged (0-12 y.o)
Problem
The majority of Indonesian society is raised by traditional mothers, who always prioritize their family's needs over their own.
This creates a societal expectation that mothers should be entirely selfless, sacrificing her wants for the whole family.
Insight
However, progressive mothers understands that indulging in those self-care activities are not selfish.
They recognize that it's vital to prevent burnout and return to their role as a mother stronger.
Consumer Tension
Progressive mothers often feel guilty doing self-care activities, fearing they'll seem neglectful or selfish.
Despite knowing that it's crucial to prevent burnout and return to motherhood stronger.
Brand Truth
XL provides extra internet data and XL points to users, giving them flexibility for self-care activities.
This helps strengthen their role as mothers, ensuring they can provide the best for their families.
Brand Proposition
RECHARGE YOUR MOTHERHOOD BANDWIDTH
XL acknowledges that today's progressive mothers have a limited "bandwidth" and to recharge through self care is crucial in order for them to always provide the best for their families.
